

How do I find out about working with Gridley House?

Just reach out via our contact page and let us know a little bit about what you're hoping to accomplish and where you're located. Then we'll get in touch to discuss. For clients in the area we'll meet in your space to start the project, but we also provide the same services just as easily via Zoom for clients throughout the country.

Do you design in a certain style?

While I have a unique aesthetic for things I choose for my own home, I actually appreciate so many different styles. Updating a client's space to reflect who they are is one of the things I love most about my job. What you choose for your home should bring you joy and I'm here to help you accomplish that.

Do we have to sit down and look at a bunch of swatches and samples?

No - our process makes things easy on you! A bit of time is taken to get to know your preferences (in addition to taking measurements and discussing your budget for the new items we'll source). But after that you can relax while your project gets underway. However, if you need help choosing fabrics, tile, flooring, etc. - we are totally here for that too.

I have one room where I want to start from scratch and other spaces that just need a few updates - can we make it all flow with the pieces I already have?

Absolutely! We can make suggestions for as many areas as you'd like or just focus on one space. Keeping those meaningful heirloom pieces and vintage furniture that you love is important. We make sure to source furniture and accessories that will give you that refreshed look while complimenting the pieces that are keepers. And you're not limited to just new retail suggestions - we can help you with unique local finds for vintage pieces as well.
